

CLAIMS

I claim:

1. 1. A disposable pet waste glove, comprising:

2        a front portion and a back portion, the back portion being  
3 connected to the front portion to form a sheath adapted for  
4 encasing dorsal and ventral aspects of a hand;

5        a plurality of tubular finger sleeves extending from the  
6 sheath;

7        a thumb sleeve extending from the sheath;

8        a wrist portion extending from the sheath; and

9        a drawstring disposed about the wrist portion;

10      whereby a user places the glove on the hand, picks up pet  
11 waste material with the gloved hand, turns the glove inside out  
12 by pulling the drawstring up over the hand and fingers, and  
13 tightened the drawstring in order to contain the waste material  
14 within the glove for disposal.

1        2. The disposable pet waste glove according to claim 1,  
2 wherein said is adapted for being worn on either hand.

1        3. The disposable pet waste glove according to claim 1,  
2 wherein said sheath, said finger sleeves, said thumb sleeves,  
3 and said wrist portion are made from latex.
